

Mission

Touchpoints at Home is committed to providing a level of quality care that encourages the safe and cost effective delivery of home health services.

Our goal is to promote positive patient outcomes by maximizing patient autonomy and coordination of resources to decrease illness, burden, and unnecessary duplication of services.

Benefits

- Care is provided in the privacy and comfort of one's own home
- Individualized Care – Personalized care plans are developed with patients and their families to ensure each individual's needs and goals are met
- In-home care allows individuals to remain as functional and independent as possible in their own environment which provides a much higher sense of security and dignity
- Patient-centered care which encourages family involvement, also focuses on recovery and sustaining good health
- Familiar surroundings reduce anxiety, stress and confusion
- Promotes healing and provides reduced risk of infection
- Less costly than in-patient service alternatives
- Receiving home health care helps to reduce unavoidable readmissions to the hospital. Studies have shown that patients recuperating from illness, injury or surgical procedure heal faster and more successfully when recovering at home versus in a medical facility
- Seamless transition from Touchpoints Rehab facility to Touchpoints at Home. You can even keep the same rehabilitation therapist!
